

Becoming a Partner Organization of St John's Mill

Many of our members are having to review their costs at the moment and for some it might be worthwhile considering becoming a partner organization of St John's Mill.

The Mill is a venue for events, training, AGM's, and team building that constantly receives praise for its facilities, friendliness and food from those who use it. If you haven't yet visited the Mill you can see full details on their web site www.stjohnsmill.com or by calling the office on (01624 802900) and requesting a brochure.

In recent years 'The Mill' has developed a number of partnerships with those using the building to 'self manage' in return for a reduction of charges of up to 50%. This facility is now being made available to 'Connect2Charity' members!

All that is required is to write to the Mill Trustees outlining your charitable aims and objectives and indicate how often you would like to use the Mill. Subject to the endorsement of the application all that is then required is to do a basic safety and induction training for 2 or 3 nominated members or staff of your charity who would be responsible for the management of any events.

The Mill is also able to offer facilities for hot desking and in some cases to provide administrative support.

If any Connect2Charity members feel that St John's Mill can help them in these or any other ways please contact Jill or Helen on 802900 to arrange a visit and get full details of the offer.
